BLOOD PRESSURE

KEY INGREDIENTS

Red Aloeverta Pulp

Honey

Ashwagandha Herb

WHY DO WE NEED IT ?

Human-body consists of trillions of bacteria which resides in different tissues and bio-fluids including skin, mammary glands, seminal fluid, ovarian follicles, and gastrointestinal and digestive tract. There are two types of bacteria "Good and Bad" living inside our body. Good bacteria affect our immune system positively and prevent the risk of obesity, high cholesterol, blood pressure, low immunity, and metabolic disorders. Unhealthy food habits interfere with the natural pathway of good bacteria and enzymes that causes diseases.

Hence a product with the presence of phytochemical such as Aloin, Barbaloin Calcium, Zinc, Magnesium, Vitamin B, C, E is needed to fight the skin infections, keep liver hydrating and fighting bad bacteria of the digestive tract.

WHY CHOOSE RED ALOEVERTA JUICE ?

It is 22 times more powerful than common aloe vera in chemical content. Red Aloeverta has amino acids double to that of common aloe vera and has polysaccharides 3 times than common Aloeverta.

HOW DOES IT WORK ?

Aloeverta consist of 99% water and 1% antioxidants which consist of skin-enhancing enzymes, contains amino acids, minerals, nutrients, vitamins, polysaccharides, chlorophylls and it stimulates the production of red blood cells, increases collagen, anti-diabetic, anti-parasitic and also help in curing heart diseases.

RECOMMENDED DOSAGE

30 ml directly once a day on an empty stomach.

**SAFETY
WARNING**

Not to be consumed during Pregnancy,
Lactation and persons with intestinal irritation.
