## KEY INGREDIENTS

Yashtimandu

Tulsi

Pudina

## WHY DO WE NEED IT ?

The polluted air that we inhale includes ozone, nitrogen dioxide, particulate matter, diesel exhaust particles, etc. into our lungs. It leads to respiratory tract infections. It leads to problems associated with dry throat, breathing problem, coughing, wheezing, and irritation in nose. The protective antioxidants present in the lining of our lungs help counter the effects of these pollutants, but sometimes they are not enough.

Seasonal allergic reactions may lead to viral infections causing Cold, Cough, Flu.

Therefore a product with fast acting formula to relief upper airway tract infections and act as an expectorant.

## WHY CHOOSE COLD+COUGH SYRUP ?

Cold+Cough syrup is a useful remedy for both type of cough dry and wet cough(containing mucus). It treats upper airway infections, allergies, pollution related allergies, nasal congestion by mucolytic property.

## HOW DOES IT WORK ?

It is mucolytic in nature and augments expectoration of bronchial secretions. Tulsi, Yashtimandu present in it pungent warming action; it liquefies the mucus and eliminate the cough.
