

SUPERFOOD NONI PLUS+

Finest Grade Noni Juice Concentrate

Supports to improve **IMMUNITY**

Supports in **URINARY TRACT INFECTIONS**

Supports to improve **MENSTRUAL HEALTH**

Supports in **REDUCE STRESS & revitalize the BODY**

Supports to maintain healthy **BLOOD SUGAR LEVEL**

KEY INGREDIENTS

Withania Somnifera (Ashwagandha)

Morinda Citrifolia (Aal (Noni))

Emblica Officinalis (Amalaki (Amla))

WHY DO WE NEED IT ?

Metabolic detoxification is the pathway by which the body processes unwanted chemicals for elimination. During oxygen metabolism, toxic byproducts are formed known as free radicals. Stressful environmental conditions such as aging, environmental factors and pollution causes oxidative stress that causes an imbalance between free radical activity and antioxidant molecules tends to damage cells, proteins, and DNA which give rise to chronic diseases. Superfood Noni is world's superior antioxidant which is rich in Vitamins A, C, E Calcium, Iron. It helps in maintaining intact cell DNA to prevent aging effects.

WHY CHOOSE SUPERFOOD NONI PLUS+ ?

Studies have confirmed that Noni juice has tremendous anti-oxidative potential-this means that it prevents aging effects. Morinda Citrifolia or Noni juice extends its therapeutic effects in curing out. The effectiveness of Noni juice in curing such diseases attributes to its inhibitory action on the xanthine oxidase enzymes which are implicated in gout and its associated problems; combination of rasayana churana makes it a unique formula to induce detoxification.

HOW DOES IT WORK ?

Cellular damage in the body is more susceptible in the case of neurons, liver cells. Free radicals exposure to the cells cause DNA damaged. Phytochemicals of Noni juice prevents the cellular damage and keep the DNA intact so that our body functions don't get affected. This feature of preventing oxidative stress makes Noni plant a strong anti-inflammatory, analgesic, hypotensive.

RECOMMENDED DOSAGE

Dilute 10-15 ml of noni juice with 500 ml of water or fruit juice and consume 20-30 minutes before food. An adult can consume twice daily and children can consume the half dose.

SAFETY WARNING

In case of Nausea, Pregnant or Lactating women are advised to consult a doctor before using.
