## WHY DO WE NEED IT ?

Our bodies are pretty complicated, meaning that they have a whole of nutritional needs in order to survive and function. These needs are fulfilled by two types of nutrients macronutrients (carbohydrates, proteins, and fats) and micronutrients (vitamins and minerals). Macronutrients are required in large amount to grow, develop, repair and feel good! Micronutrients are the components which are needed in minute quantity by the body but deficiency of any of these nutrients may cause several disorders. So, these nutrients are essential to carry out normal body functions. Thus wheatgrass is not just a herb or a food supplement, but it is a complete food and may be taken daily, even by healthy people.

## WHY CHOOSE WHEATGRASS PLUS+ ?

Wheatgrass plus is an excellent source of many different vitamins and minerals. It is especially high in Vitamins A,C, and E as well as iron, calcium, and magnesium. It is experimentally proved to be rich in antioxidants that fight the free radicals to prevent cell damage and to reduce oxidative stress and to protect against heart disease, cancer, arthritis.

## HOW DOES IT WORK ?

Wheatgrass helps blood flow, digestion, and general detoxification of the body due to the presence of biologically active compounds and minerals in it and due to its antioxidant potential which is derived from its high content of bioflavonoids such as apigenin, quercetin, luteoline. Wheat grass stimulates metabolism, restores alkalinity to the blood, its abundance of alkaline minerals helps reduce hyper acidity in the blood. Combination of wheat grass powder with Amla and Giloy makes it effective remedy for lowering bad cholesterol.
