The Ageing Phenomenon

- **There are several factors that affect skin ageing:**
- Ageing is an inevitable and natural part of our life
- Skin ageing is predominantly caused by UV exposure over long periods of time. UV rays break down collagen and elastin and slow the production of new collagen which aids in skin repair and gives skin its strength.

Genetic factors – DNA damage

- ☐ Free radical damage
- ☐ Hormonal imbalance
- ☐ Lifestyle disorders – excessive smoking, alcohol, stress, poor sleeping habits, poor diet
- ☐ Environmental Pollution
- ☐ Prolonged sun exposure
- ☐ Harsh skin care products and improper cleansing techniques

Basic Skin Regimen

Your daily regimen is highly dependent on your skin type, condition and age

A basic regimen must consist of the following:

Regimen	Frequency
Face wash	Everyday
Cleansing milk	Everyday
Toner	Everyday
Exfoliation	Every alternate day
Treatment	Everyday on targeted areas
Moisturizer	Everyday (with day or night cream)

Know your Skin Type

Determine your skin type

- ✓ **Normal** skin shows neither oil nor flaking skin, it feels supple and smooth
- ✓ **Oily** skin is characterized by the grease on the tissue. It is also common for a person with oily skin to have large pores and a shine
- ✓ **Dry** skin may feel taut or show flakes of dead skin. It is associated with small pores
- ✓ **Combination** skin is most common. It exhibits traits of all three of the above skin types. Usually, the skin is oily in the T-zone and normal to dry elsewhere

Charcoal Peel Off Mask

Benefits

Activated charcoal draws bacteria, toxins, dirt and oil from the skin. If it's a peel-off mask, it also works as an excellent exfoliator, ridding the skin of dead cells. The end result is skin that is clean and clear. When used as a powder, charcoal masks can reach deep in your pores and suck out impurities with them. Excessive oil production in the skin can be a problem, especially for young, teenagers, who are battling hormonal changes within the body and skin. When a charcoal peel-off mask is used on the skin, it can help absorb this excess oil production, balancing sebum levels and ensuring that anything over and above the required oil secretion is taken care of.
