leading you to success

# Heart

- The **heart** is a muscular organ about the size of a fist,
- Located just behind and slightly left of the breastbone.
- The **heart** pumps blood through the network of arteries and veins called the cardiovascular system

© 2010 Encyclopaedia Britannica, Inc.

# Function of Heart

- Pumping oxygenated blood to the other body parts.
- Pumping hormones and other vital substances to different parts of the body.
- Receiving deoxygenated blood and carrying metabolic waste products from the body and pumping it to the lungs for oxygenation.
- Maintaining blood pressure.

# 'Stress', Enemy of The Heart

**PROVEDA**  
leading you to success

- *Today's fast paced life and workplace pressures escalate stress levels, taking a toll on one's heart.*
- *We must realize that the healing power of the body decreases when under stress, leading to many complications like hypertension and poor immunity.*
- *Today, even youngsters are prone to heart ailments. So, it's very important to stay healthy and manage your lifestyle by understanding the risk factors such as high cholesterol levels, high blood pressure,*
- *stressful lifestyle, eating unhealthy food smoking, drinking and lack of exercise. Following simple changes in lifestyle*

# What Are Cardiovascular Diseases

**PROVEDA**  
leading you to success

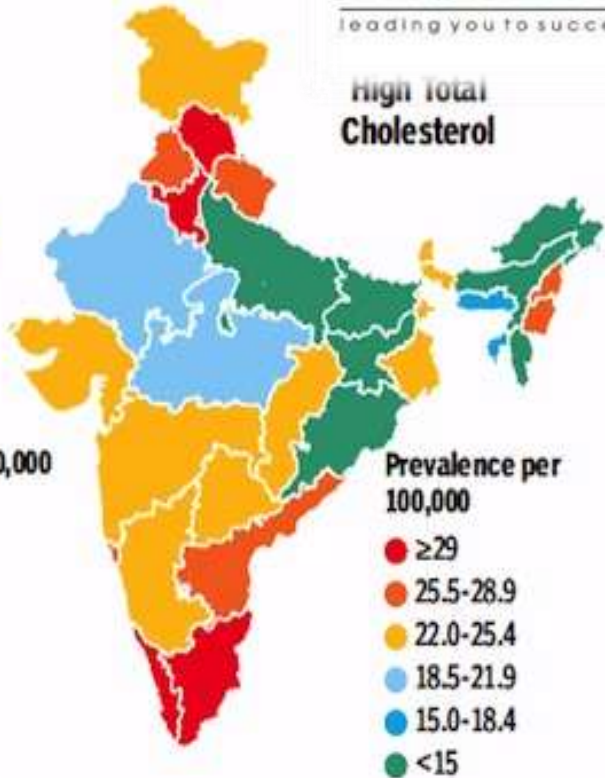

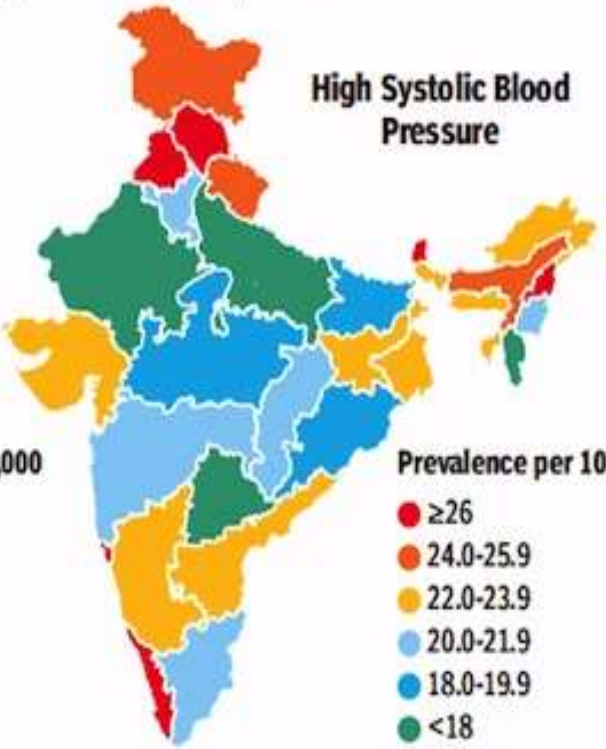

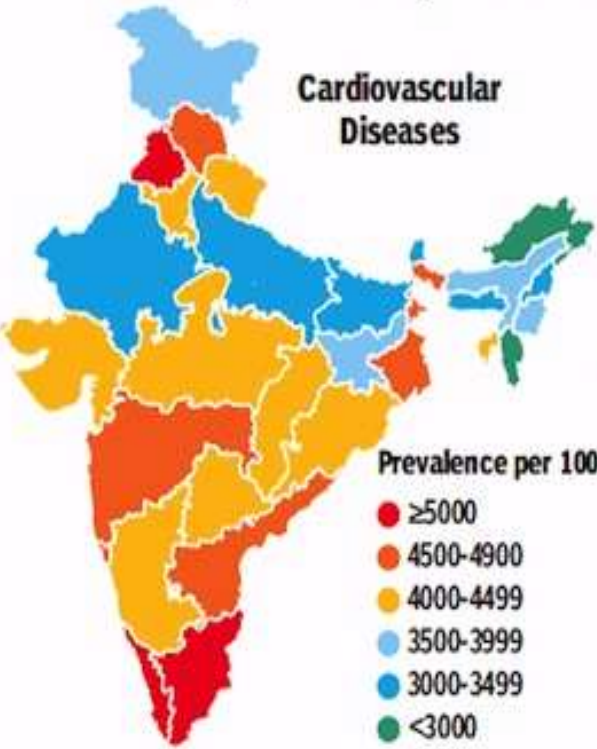

- Abnormal **heart** rhythms, or arrhythmias.
- Aorta **disease** and Marfan syndrome.
- Congenital **heart disease**.
- **Coronary artery disease** (narrowing of the arteries)
- Deep vein thrombosis and pulmonary embolism.
- **Heart** attack.
- **Heart** failure.
- **Heart** muscle **disease** (cardiomyopathy)

# HEART DISEASE IS THE BIGGEST KILLER

Many more people die of heart disease than cancer. In 1990, cardiovascular diseases accounted for 15.2% of all deaths; by 2016, this shot up to 28.1% with 2.8 million dying of heart problems. But, again, if you look at the age-standardised rate, there is no significant change in the 26-year period

## YOUR FOOD HABIT MATTERS MOST

- **Cases of diabetes** is rising rapidly – from 26 million in 1990 to 65 million in 2016. Even after age-standardisation, diabetes cases rose 29.7%
- It contributed to 3.1% of total deaths in 2016

- The top three states are Tamil Nadu, Kerala and Delhi
- Obesity was a major cause for diabetes. Of every 100 obese adults, 38 are diabetic

# Pro Cardio

## Protecting your Heart

**PROVEDA**  
Leading you to success

- Pro Cardio capsules supplement is a herbal formulation that combines the ancient botanical wisdom of Ayurveda with today's contemporary science
- in a safe, powerful and effective way. It contains herbs with broad-ranging benefits like Arjuna, Grape Seed, CoQ10, Guggul, Garlic and Flax seed which work together to holistically support heart function.
- It supports efficient heart muscle metabolism by helping improve its oxygen and energy utilization.
- It helps maintain normal cholesterol and lipid level supports healthy platelet formation and their function and takes care of overall heart function.

# Pro Cardio Ingredients

## Co enzyme Q10 (ubiquinone)

- CoQ10 have significant benefits for people with cardiovascular disease (CVD), from reducing risk for repeat heart attacks and improving outcomes in patients with heart failure to lowering blood pressure and helping combat side effects of cholesterol-lowering statins.

## Grape seed Extract (*Vitis vinifera*)

- GSE is a potent source of antioxidants. The antioxidants in GSE may help alleviate the oxidative stress, inflammation, and tissue damage that can occur alongside chronic diseases. By supplementing with GSE, you'll reap the benefits of better heart,

## Arjuna (*Terminalia arjuna*)

- Arjuna is an amazing heart tonic and cardio-protective herb. It is potent in strengthening the cardiac muscles, improving the circulation of coronary artery blood flow and prevents the heart muscle from ischemic damage

# Pro Cardio Ingredients

## Garlic (*Allium sativum*)

- Garlic has positive effects on heart health by preventing cell damage, regulating cholesterol and lowering blood pressure. Other research shows that garlic supplements may also reduce plaque build up in the arteries

## Guggul (*Commiphora wightii*)

- Guggul is good for the heart. It has antioxidant, anti-inflammatory and anti-lipidemic (lipid lowering) properties. It reduces the level of low-density lipoprotein (LDL or bad cholesterol) thereby preventing blockage in the arteries

## Flax seed (*Linum usitatissimum*)

- Flax seeds are a rich source of the omega-3 fatty acid ALA (alpha-linolenic acid). Plant-based ALA fatty acids are proven to have heart health benefits and are linked to a lower risk of stroke. Early research also suggests that flaxseed might help lower high blood pressure, which plays a role in heart disease. Cholesterol levels.

# Benefits of Pro Cardio

**PROVEDA**  
leading you to success

- ❖ Works as a tonic for heart health.
- ❖ Support normal heart functions.
- ❖ Supports normal cholesterol & lipid levels (LDL, HDL, Triglyceride)
- ❖ Supports normal blood pressure levels and healthy blood circulation.
