Woman Care

Beware of these GYNAECOLOGICAL DISORDERS

Woman are more prone to diseases

Women and men also have many of the same health problems. But these problems can affect women differently. For example,

- Women are more likely to die following a heart attack than men
- Women are more likely to show signs of depression and anxiety than men
- The effects of sexually transmitted diseases can be more serious in women
- Osteoarthritis affects more women than men
- Women are more likely to have urinary tract problems

Unique issues include pregnancy, menopause, and conditions of the female organs. Women can have a healthy pregnancy by getting early and regular prenatal care. They should also get recommended breast cancer, cervical cancer, and bone density screenings.

her health

Why Women Care Syrup?

- Woman Care syrup is an ayurvedic general health tonic made using Ashwagandha, Amla, Giloy, Ajwain etc.
- It is a beneficial Ayurvedic tonic for women which helps to deal with Gynaecological disorders.
- It helps in regulating the body system and beating stress.
- A perfect solution for those women who suffer from uterine issues like menstruation problem, painful menstruation, irregular menstruation, excessive uterine bleeding etc.
